We had the opportunity to hire "Scary Gary the Pirate" for our Halloween event, "Family Fright at the Fort" this year at Fort Langley National Historic Site. We chose Gary because of his professional manner, great selection of tricks (plus willingness to bring decorations) and as a bonus, we also hired his wife to offer face-painting.

This is the first time we featured a magician as our main entertainer, and we were curious to see how he would interact with our visitors. We were pleasantly surprised. Gary was really engaging for our audience of all ages. He dressed up as a pirate and brought an array of animals with him. The different tricks that he showed were captivating and well varied. We were happy to see his bunny appear and disappear, a classic but much loved trick! Still trying to figure out how he made 4 birds appear out of thin air! Visitors were raving about his performance and appreciated his ability to keep kids of all ages engaged and entertained. Jeannie did a great job with the face painting, and we had lots of happy kids on site.

We found Gary to be professional and he went out of his way to help promote the event. We would definitely recommend Gary and Jeannie for family events.

Sincerely,

Nancy Hildebrand & team
